Copyright, Canada, 1951, by Henderson Directories Ltd., 279 Garry St., Winnipeg.

# Introductory

The present volume constitutes the 1951 edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues, these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

## THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting at page 9 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

## THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 25 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

△ Denotes that there is a Telephone in the house.

◆ Denotes that someone living in the house is the owner.

## THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens and their wives, business firms and corporations starts on page 345.

## THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY, at the back of the book, exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed, as well as complete listings of Cemeteries, Churches, Consuls, Hospitals, etc.

## EDMONTON POPULATION, estimated in excess of 165,000

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory with due allowance for children and for women whose names are not listed. The Edmonton Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Edmonton may be obtained.

## ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence as a business location, as an industrial site and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

HENDERSON DIRECTORIES LIMITED.

July, 1951.

## PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

CAPITAL OF THE PROVINCE OF ALBERTA

## Statistical Information

### POPULATION—

Edu. vnton estimate including West Jasper and other suburbs—In excess of 165,000.

### AIRPORT—

The Airport comprises 750 acres, with 3-mile long concrete runways, 16 hangars, 200 small buildings, and employing 1,000 people.

### ALTITUDE—

2,182 feet.

### APARTMENTS AND BLOCKS—

808.

### AREA

42.6 square miles

### BANK CLEARINGS—

1949 — \$1,020,493,676

1950 — \$1,305,326,649.

### CHURCHES—

122 representing all denominations.

### CITY STATISTICS—

450 miles of streets, 398 miles of sidewalks, 889 miles of water mains, 360 miles of sewers.

### COMMERCIAL BUILDINGS—

4,485.

### EDUCATIONAL—

39 Elementary Schools, 17 Junior High Schools, 5 Senior High Schools, 4 Colleges and University of Alberta

### FINANCIAL INSTITUTIONS—

7 Chartered Banks, 33 Branches, 9 Trust Companies and 3 Alberta Treasury Branches.

### FIRE DEPARTMENT—

26 pieces of equipment.  
7 Stations staffed by 280 officers and men operating on the 3 platoon system.

### FORM OF GOVERNMENT—

The City of Edmonton is governed by a Mayor and ten Aldermen and by two City Commissioners.

### GOLF COURSES—

5

### HOSPITALS—

7 hospitals with 3,076 beds.

### HOTELS—

25 of all classes

### LIBRARIES—

One Public Library and 1 branch

### NEWSPAPERS—

1 daily and 7 others.

### NATURAL GAS—

Proven natural gas reserves rose from two and one-half trillion cubic feet in 1947 to seven trillion, while potential reserves "in a few years" might stand at 28 trillion cubic feet.

### OIL CENTRE—

A year ago known reserves were estimated at about 550 million barrels. 1950 is expected to prove a reserve of 2 billion barrels — with only a small portion of the province's possible oil bearing areas investigated.

### PARKS AND PLAYGROUNDS—

Consists of 2,500 acres.

### POLICE DEPARTMENT—

4 Stations staffed by 176 officers and men, with radio equipped cars and motorcycles

### POPULATION—(Greater Edmonton)

1900	4,000
1906	14,000
1921	58,827
1925	65,325
1930	77,577
1935	81,261
1940	91,723
1945	111,745
1949	150,000
1950	160,000
1951	165,000

### POSTAL RECEIPTS—

\$1,849,285.11

### PROPERTY ASSESSMENT—

1951 — \$133,685,450.

### TAX RATE—

1951 — 56 Mills.

### TOWN PLANNING DEPARTMENT—

Created in 1949 for the City of Edmonton and has a staff of twelve members. This is the central Civic Department around which resolves all problems of overall Town Planning approach, procedure, method, initiation, plans and general administration of Town Planning functions.

### TRANSPORTATION—

Street car and bus. 32 Trolley Buses, 62 Gasoline Buses and 41 Street Cars.

### THEATRES—

14.

### UTILITY CONNECTIONS—

Electric Meters	46,262
Gas Meters	35,027
Telephones	89,383
Water Meters	31,511

# Miscellaneous Information

(By Courtesy of the Chamber of Commerce)

Modern Edmonton began in 1871, when the Rev. George McDougall, a Methodist Missionary, built his mission outside the palisades of old Fort Edmonton, on the present site of what is now McDougall United Church. The history of the capital city of the Province of Alberta began in 1794, when the Hudson's Bay Company and the North West Fur Company built rival trading posts on the Saskatchewan River, about twenty-five miles below the present site of the City. These forts were destroyed by the Blood Indians in 1807, and rebuilt in 1808, but very little is known of the history of Fort Edmonton between that time and when Fort Edmonton was established on its present site, in 1819. Some years later Chief Factor John Rowand was placed in charge and built the largest establishment west of York Factory with stockades twenty feet high, complete with bastions and cannon, which became known as "Rowand's Folly" but which, nevertheless, was the trading centre for the vast Saskatchewan and Athabasca valleys.

In the years which followed Fort Edmonton was visited by Sir George Simpson, Governor of the Company of Gentlemen Adventurers Trading into Hudson's Bay, who was implored by the Blackfoot Chiefs to "grant that their horses might always be swift, that the buffalo might abundantly abound, and that their women might live long and always look young." Other visitors included Paul Kane, famous Canadian artist; Captain John Palliser and James Hector, of the Palliser Expedition looking for a railway pass through the Rocky Mountains; Lord Milton and Dr. Cheadle on behalf of the Royal Geographical Society; and in 1872, Sanford Fleming, C.E., with his party reached Edmonton on the first transcontinental railway survey via the Yellow Head Pass.

Edmonton is beautifully situated on the banks of the North Saskatchewan River, in the midst of rich rolling evergreen country and is surrounded by a populous community carrying on mixed farming on small acreages. To the northwest is the Peace River Country, the last great hinterland of agricultural and mineral resources well-known for its prize-winning crops and its success in world grain competitions. But Edmonton's trading territory extends beyond the Peace River Country, into the Yukon Territory and right into Alaska. To serve the community of Yellowknife and the Northwest Territories, the Mackenzie Highway has been jointly constructed by the Government of the Province of Alberta and the Dominion of Canada, to haul supplies for this vast area to Hay River, to be taken across Great Slave Lake by boat and barge, or hauled, in winter, by tractor train across the ice.

## LOCATION AND ADVANTAGES

Edmonton (latitude 53-35; longitude 113-30) is located 518 miles north of the boundary between Montana and Alberta; 280 miles east of the Rocky Mountains; 776 miles from Vancouver, via the Canadian National Railways and Jasper, 846 miles on the Canadian Pacific Railway

via Banff and Calgary; and about 600 miles west of Winnipeg.

It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and containing at the present time some 500,000 people, distributed on the farms and in the towns and villages of Central and Northern Alberta, with the centre of population for the province about forty miles to the south.

The City is also an important highway centre. A good highway, some of which is black-topped, exists from Edmonton to Jasper Park, 248 miles to the west thence via the famous Sunwapta Highway, or the Banff-Jasper Highway as it is more commonly known to Lake Louise and Banff. The widely-publicized Alaska Highway, over 1,600 miles in length from Dawson Creek, British Columbia, to Whitehorse and Fairbanks, has highway connection with the City. Since the Alaska Highway was taken over by the Canadian Army, it has been kept open the year-round and thousands of tourists, not to mention freight trucks and busses, are continuously plying its entire length.

## HOTELS AND ACCOMMODATION

The City has numerous hotels, auto courts, apartment houses and private boarding houses catering to every class of tourist and traveller. But with Edmonton's growing pains, this accommodation is not nearly sufficient to meet requirements, and the Edmonton Chamber of Commerce, in conjunction with the City of Edmonton has set up a Tourist Information and Accommodation Bureau to provide lodging in the private homes of the City. The Emergency Accommodation Bureau too, operated by the City is geared to cope with the housing situation.

## PARKS AND RECREATION

Edmonton has plenty of places of interest, both within and without its borders. The social side of life—sports and recreation is fostered by many organisations and clubs, and the Recreation Commission, a civic body, is charged with handling sports within the City parks and playgrounds, where trained instructors are on duty night and day during the summertime. Clarke Stadium with a seating capacity of four thousand, provides for rugby, soccer, lacrosse and track events, while contiguous to the Stadium grounds are a cricket pitch, hard and softball grounds. Amateur ball is played on the diamonds at Kingsway; with semi-professional ball devotees patronising Diamond Park.

The principal parks are, Victoria, 200 acres, lying on the river flats, Riverside, 28 acres, beautifully situated in Queen Elizabeth Park, Border, 66 acres, containing the City Zoo; and Exhibition Park, 80 acres.

The moving picture houses give the public the best and latest shows; while those interested in amateur theatricals find full scope for their talents.

The Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada, and many States, are regular exhibitors. A new innovation during the last few years has been two weeks of racing, which is proving most popular.

## GOLF COURSES

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite outdoor sport. The bright, pleasant days of spring and summer with their long twilight evenings, provide ideal golfing even after the business of the day is over.

The privately-owned Edmonton Golf and Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south west of the City, in close proximity to the Woodbend oil field.

Mayfair Golf Club too is privately owned and is situated in the valley of the Saskatchewan River, just below and beyond the University of Alberta.

The Highlands Course, also privately owned, is situated in the eastern section of the City along the winding banks of the Saskatchewan.

The Municipal Golf Course in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slopes of the valley and on the other the Saskatchewan River winds through tree-clad banks. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

The Prince Rupert Course situated close to the centre of the City, is available to visitors and the general public.

## MUNICIPAL SWIMMING POOLS

Edmonton is well-equipped for safe outdoor bathing. Three modern swimming pools, together with a wading pool for small fry are in operation during the spring, summer and autumn months each in charge of a qualified instructor. The water is filtered, heated and sterilized and bacterial tests are regularly made by the City Bacteriologist.

## NATURAL GAS

Edmonton has an abundant supply of natural gas supplied to householders at the lowest rate on the North American continent, sufficient for at least fifty years, according to present estimates, for both household and industry. The present sources of supply are piped to the City from the Viking and Kinsella fields about eighty miles east. Edmonton consumers—domestic, commercial and industrial number over twenty-six thousand—paying about two-and-one-half million dollars annually for the service.

## CENTRE OF TRANSPORTATION

Edmonton is the centre of transportation for Alberta, from which radiates a network of railway lines extending northwesterly into the Peace River area and northeasterly to Waterways, the commencement of river travel to the Arctic, as well as eastward and westward to the borders of the province, and southward through a rich agricultural farming area. Transcontinental lines of the Canadian National Railway pass through the City and the Canadian Pacific Railway makes contact with many points through which the transcontinental lines of that company pass.

The Airways development of the continent has brought into prominence as

one of the strategic centres of air transportation, and only recently Trans-Canada Air Lines established Edmonton as a main line point on its east-west service. The great north country is provided with regular freight and passenger schedules by Canadian Pacific Air Lines, which company also operates to the Pacific Coast and will soon commence an Oriental service. A number of charter aircraft companies also are based in the City. North West Air Lines planes also make Edmonton a port-of-call on their way to Alaska. Average monthly volume of air traffic exceeds 10,000 take-offs and landings.

Edmonton has a Class "A" airport equipped with modern concrete runways and capable of handling the largest aircraft, located within five minutes' drive from the heart of downtown Edmonton. At Namac, seven miles north, is one of the largest military airports on the continent.

A seaplane base is located at Cooking Lake, twenty miles east of the City, and there is supplementary landing provided on the Saskatchewan River, on the City's eastern boundary.

## EDMONTON CHAMBER OF COMMERCE

The Chamber is this year celebrating its sixty-second year of community service and its membership of nearly twelve hundred, is comprised of professional, industrial, commercial and agricultural interests. Information on all matters relating to the resources of the district, business opportunities and general information of all kinds, is freely given by a competent staff, located in the McLeod Building, opposite the Edmonton Post Office.

## EDMONTON INDUSTRIAL DEVELOPMENT BOARD

With representatives from the City Council, the Edmonton Chamber of Commerce and the Trades and Labour Council and spear-headed by the City's Industrial Commissioner, the Board has been set up for the purpose of assisting and attracting new industries. Complete information is available to all enquirers regarding markets, costs of operation, taxes, and kindred material.

## RETAIL STORES

As befits a city serving so large a community Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands in larger and older cities in the display of things new and beautiful. They range from the big department store to the specialty shop and the modest corner store. In keeping with the City's growth, shopping centres are developing in various areas to serve the residential districts which are springing up in all directions. The volume of retail sales in the City of Edmonton has more than doubled in a seven-year period.

## WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the northwest makes it an important distributing point for a large territory. From the earliest times, it was a natural trading centre—in the days of the fur trade it was the principal point west of Winnipeg on the transcontinental route and the head of

navigation on the North Saskatchewan River. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched. Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms, the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

#### INDUSTRIES

The vast supplies of raw materials available in the area adjacent to Edmonton and its central location for distribution, makes Edmonton a key city for industrial expansion. Dairy and meat packing industries are firmly established and rank amongst the top in the Dominion. Garment factories, iron foundries, flour and cereal mills, candy and biscuit plants, beverage and soft drinks are but a few of the industrial lines represented here. The availability of coal and natural gas, as economical fuel make Edmonton a favorite location for those contemplating establishing industries in Western Canada.

#### A GRAIN CENTRE

Edmonton is the centre of the grain trade for Central and Northern Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada are represented on the Edmonton grain market.

#### EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located in Edmonton and operated under government supervision. Livestock to the value of seventy million dollars passed through the stock yards and the various Edmonton packing plants during 1948. A horse-meat pickling factory, one of the newer industries, is exporting its product to European markets.

#### AGRICULTURE

Edmonton is the centre of the largest area of agricultural land of any city in Canada. In the outlying districts much of the land is still in the raw state, but is gradually being brought under cultivation. The finest quality of wheat, oats, barley and peas are grown with Edmonton District farmers making a name for themselves and the area by their winnings at the Chicago International Grain and Hay Show; in fact in 1941, the Grand Championship for wheat was awarded to a farmer part of whose acreage is within the City limits.

#### DAIRYING

Agriculture in the Edmonton District is developing rapidly along in feed farming lines, and a wealth of farms in the area supply butterfat to the four large, modern dairies which export butter, cheese and other dairy products. The City is also the export centre for dehydrated eggs and poultry.

#### COAL

Coal mining operations are actually carried on under certain sections of the city, and a substantial part of Alberta's tremendous coal reserves of 46½ billion tons, by far the largest part of Canada's undeveloped coal resources, is contained in the Edmonton area.

#### OIL AND ASPHALT

The discovery of oil west of Leduc, in February, 1947, and about twenty miles south-west of the City, and the vast developments which are taking place day by day, with many allied companies to the industry already having established in Edmonton, is changing Edmonton's economic outlook. In addition to Leduc and Woodbend, across the Saskatchewan River from the Leduc productive field, oil was discovered in the fall of 1948, at Redwater thirty-five miles north-east of the City, and present indications are that oil underlies the whole of the area. Over seven hundred and fifty wells have been brought into production in slightly over a three-year period. A refinery has been constructed on the outskirts of the City, and additional facilities are in the course of construction at Devon, the townsite located in the centre of the Edmonton-Leduc area. Exploratory and development work is being carried out by major Canadian oil companies, with ever-increasing interest by American concerns. A number of pipeline companies have recently been incorporated by act of the Dominion Parliament for the purpose of exporting gas and oil.

Two hundred and fifty miles north of Edmonton, in the vicinity of McMurray there is a vast area of bituminous sands, largely undeveloped, and whose economic value is as yet unproven.

#### SALT

Tributary to Edmonton are vast salt deposits, with beds 100 to 200 feet thick, one plant being in operation at McMurray and another, recently opened at Elk Point about a hundred miles north-east of the City.

#### FISHERIES

The fresh water lakes of the Edmonton District and the North abound in whitefish, trout and other commercial fish, and in 1949, over six million pounds were taken from these lakes, with an estimated value of over \$556,000. A large quantity of fish is being shipped to American cities, finding a ready market there.

#### LUMBERING

Lumbering is carried on in the outlying areas, and in 1949 over 355,000,000 ft. m. was marketed at a net value exceeding fourteen million dollars. The industry provides seasonal employment for large numbers of Alberta citizens.

#### EDUCATION

Edmonton, the capital city of the Province of Alberta, is not only the seat of the provincial government, but is also the home of the University of Alberta, which in 1949-50 had an enrollment of 4,263, and this year is graduating the largest class in its history. The medical, engineering, and agricultural faculties of the University have received country-wide recognition, and the medical school has been the recipient of endowments from the Rockefeller and Carnegie Foundations. The City is well-supplied with elementary, intermediate and high schools both for Protestants and Roman Catholics and in 1949 over twenty-two thousand students were enrolled. A number of commercial high schools come under the jurisdiction of the School Boards, and several privately-owned and operated business colleges are engaged in turning out commercial students.

### **LIBRARIES**

The City has two excellent libraries containing 177,666 volumes. A bus and street car have been equipped as travelling libraries to serve outlying districts, which have over 23,000 volumes on their shelves.

The Provincial Library situated in the Parliament Buildings, is rich in works and documents relating to the early history of Western Canada.

Libraries are also maintained in the School of Education and the University of Alberta, for the use and reference of students at these institutions.

### **HOSPITALS**

Edmonton's position as a medical centre is one of no mean proportions. It has seven hospitals with a total of 3,075 beds (and is even now short of hospitalization facilities), attracting specialists in every branch of medicine and surgery, who in turn attract thousands of patients to the City from the surrounding areas. Among the hospitals are the Royal Alexandra and Isolation (municipally owned), the General, operated by the Grey Nuns, the Misericordia, by the Sisters of the Misericord, St. Joseph's by the Sisters of Providence, and the University Hospital under the direction of the Provincial Government. In addition, there is a branch of the Provincial Mental Institute and a special hospital, operated by the Provincial Health Department, for victims of infantile paralysis, not to mention special treatment for tuberculosis and cancer patients. Newly erected is the Colonel Mewburn Pavilion of the University Hospital which has accommodation for members of the Armed Forces.

### **CITY GOVERNMENT**

Edmonton is governed by a Council of ten aldermen, elected for two years one-half retiring each year, presided over by a Mayor, also elected for a two-year term, and a Board of Three Commissioners, one of whom is the Mayor.

### **MUNICIPAL OWNERSHIP**

Edmonton owns and operates all the public utilities of the City—light, power, telephone, waterworks, transit system and airport. The principle of public ownership has been firmly adhered to by the people of the City since the purchase of the electric light system in 1902 when the then town of Edmonton made its first venture upon this policy, which has proven quite successful.

### **ELECTRIC POWER PLANT**

Electricity is generated by steam produced in a boiler plant, fired by Edmonton district coal, although present plans are for the conversion of some of the boilers to gas. A new 30,000 k.w. turbo generator with requisite water tube boilers and auxiliary equipment,

has recently been put in operation, increasing the capacity to over 70,000 k.w. or 100,000 h.p.

The power plant supplies electrical energy to all the City's other utilities, such as waterworks, sewage disposal plant, Edmonton Transit and Telephone systems, as well as to the electric light and power department for domestic and commercial distribution.

### **WATERWORKS**

Due to turbidity at high water periods, all water, pumped from the Saskatchewan River, for domestic and industrial purposes is filtered and sterilized before being forced into the city mains. Low-lift pumps, with a capacity of 54,000,000 gallons per day, raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks, to which the proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins, where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains, it is treated with liquid chlorine in quantities proportional to bacterial tests, which are made daily. By using such means the water supply is clear and pure. In 1941 it was considered desirable that water for city requirements be softened and a 75 P.P.M. lime and soda ash treatment is now used.

### **EDMONTON TRANSIT SYSTEM**

The street railway system commenced operations in November, 1903 with twelve miles of track and two cars. Presently a system of conversion from street cars to trolley busses is going on, with the attendant removal of street car tracks and additional heavy paving at bus stops. In addition to the trolley busses, seven feeder routes, using diesel busses, serve the outlying areas. In 1943, the system employed 327 persons and carried 30,720,000 passengers; while in 1945 there were 634 employees serving almost 37,000,000 passengers.

### **TELEPHONES**

Edmonton embarked in the telephone business in January, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowzer Automatic System was installed and 800 subscribers cut over from the old magneto switchboard. During the war years, there was great difficulty in procuring sufficient equipment to meet the City's growing needs, but now that supplies are freer installations are rapidly going ahead and subscribers numbered over 29,000 in June 1951.

# Common Sense

## About City Directory Circulation

**THE TRUE VALUE** of advertising circulation is circulation consulted.

**TO BE EXACT**—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = \\ 1,067,500$$

**Consultations or  
Circulation Consulted**

# **Please! Do Not Lend Your CITY DIRECTORY**

## **IT COSTS YOU MONEY Every Time It is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity There is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

**HENDERSON DIRECTORIES LTD.**

# **Business Insurance**
